

Personal medical wastes:

A) Non biohazardous waste:

- Casts
- Catheters
- Colostomy bag
- Dialysis waste -
 - Tubing
 - Filters
 - Disposable Towels
- Sheets
- Gowns
- Gloves
- Disposable pads
- Mask and aprons
- Gastric and Nasal tubes
- IV bags and tubings
- Soiled Dressing
- Incontinence products
- Sponges

To dispose these items simply double bag the waste and throw in the garbage.

B) Biohazardous waste:

- Sharps
- Needles
- Syringes
- Injectors
- Injection prefilled pens
- Or any other items that can pierce the skin

These wastes should be disposed in biohazard container which can then be picked up by the municipality workers.
